

TRONDHEIM KOMMUNE

DAY CARE REQUEST FOR CONSENT

Sections 8 and 9 of the Personal Data Act (*Personopplysningsloven*) stipulate that consent must be asked for when, for example, registering, storing and releasing personal data. The parents/guardians who have the daily care of the child must sign this consent form. The consent given here remains in force until further notification.

Name of the child

Name of the day-care centre

1. Consent to the use of video recording in connection with training the day-care centre staff.

Trondheim local authority is working on developing the competence of its employees in communicating with the children and parents. To support these efforts we use video recordings, for example in the 'marte meo' approach, which has been developed to support and develop the already good communication that exists. To do this we need to make video recording of situations where the staff are interacting with the children. The video recordings are then used in the training with qualified instructors and will be erased at the end of the instruction.

I/we consent to video recordings of my/our child in connection with the training of the staff.

Yes No

2. I/we consent to the list of names which includes my/our telephone number and e-mail address being distributed to the other parents.

Yes No

3. I/we consent to the day-care centre publishing text and pictures that depict my/our child participating in activities together with other children and adults on the day-care centre's website.

Yes No

4. I/we declare that the pictures and/or film with/of the day-care centre staff and/or other children attending the day-care centre shall not be published on the internet. This also applies to pictures/film/video of the staff in the day-care centre.

5. I/we consent to my/our child going on trips and excursions by means of public transportation (tram, bus, train, taxi).
